

Dear Chapter Leaders,

We realize how crucial chapter leadership training is for effective governance. We also know that scheduling can be difficult. In addition, a training visit or conference call from ILA is a one-time event that relies on good note-taking and memory in order to turn training into action.

To try to help alleviate the challenge a single session may present, we have created a new resource for chapter leaders to assist with training and Board leadership. We are in the process of creating a library of short video clips of tips and exercises for chapter Board leaders to incorporate into Board meetings throughout the year. This training content is accessible to watch as often as you'd like on your own schedule.

Below are the chapter training recorded sessions. They run between 15 and 30 minutes. In a world of on-demand learning, it is our hope that these clips will begin to serve as a resource for your chapter and help turn training into action.
