

The International Literacy Association (ILA) sponsors the Constance McCullough International Research Grant (up to US\$2,000) to encourage international professional development activities and to assist in the investigation of reading-related problems in countries outside of the United States or Canada.

This grant represents a specific means for working toward three recently articulated goals of ILA: advocacy, professional development, and emerging global issues. This grant will be made to support a proposal that meets at least one of the purposes outlined below.

1. **Advocacy:** Promote universal access to literacy and provide leadership in support of adequate funding for literacy programs on an international basis.
2. **Professional Development:** Enhance and improve professional development of literacy educators on an international basis—professional development that supports programs and processes in response to expressed needs and that responds quickly to identify professional needs.
3. **Emerging Global Issues:** Identify and provide leadership on such emerging globally significant literacy issues as access to primary education for all, access to current materials, and assessment of literacy levels.

There are no restrictions regarding age or setting (preschool, school, adult centers, etc.).
